PROFESSIONAL SUMMARY

Cybersecurity analyst with hands-on experience in traffic analysis, incident reconstruction, and digital forensics. Independently reconstructed a malware infection chain from pcap file and mapped it to MITRE ATT&CK; placed top-14 nationally in TrendMicro CTF. ISC² Certified in Cybersecurity, with self-directed SIEM and log-analysis training.

PROJECTS

KongTuke ClickFix Traffic Analysis — Independent Project	2026
- Reconstructed a full ClickFix social-engineering infection chain from packet capture (pcap) analysis - Identified the compromised host and user identity through Kerberos authentication traffic and SAMR protocol analysis - Extracted and characterized an encrypted payload using entropy analysis; mapped C2 beaconing behavior and Cloudflare-fronted domain-failover infrastructure - Mapped all findings to the MITRE ATT&CK framework (T1204.004, T1087, T1071.001, T1008, T1027); published full technical writeup to GitHub: https://github.com/gitshroom/ClickFix-malwareTrafficAnalysis	

SECURITY LAB EXPERIENCE

Self-Directed Security Labs — TryHackMe / Splunk	2026
- Completed the SIEM Log Investigation lab suite (TryHackMe): investigated a web server brute-force attack, a Linux privilege-escalation/web-shell incident, and a Windows authentication anomaly using Splunk - Completed Intro to Logs, Log Operations, and Intro to Log Analysis: log lifecycle and retention, CLI-based log analysis (grep, awk, sed, cut, sort, uniq), and attack signature recognition (XSS, SQLi) - Completed TryHackMe Splunk Basics and Splunk's official Intro to Splunk eLearning course	

COMPETITION EXPERIENCE

TrendMicro CTF — Top 14, National Preliminaries	August 2025
TrendMicro CTF — Top 42, National Preliminaries	August 2024
DICT Hack4Gov CAR — 2nd Runner-Up	October 2025
QCSP Hackathon — 1st Runner-Up	June 2026

CERTIFICATIONS

-
- ISC² (CC) — passed the exam last June 2026
 - TOPCIT Korea **Level 3** — issued September 2026
 - Cisco Introduction to Cybersecurity, Cisco Networking Basics — 2026

EDUCATION

Saint Louis University, Baguio City, Philippines	<i>Graduated: July 2026</i>
<i>Bachelor of Science in Computer Science GPA: 94.6%</i>	
- Dean's Lister, 2022 – 2026 - Devesse Award for Exemplary Performance in Leadership (2026)	

LEADERSHIP & ACTIVITIES

Integrated Confederacy (ICON), Saint Louis University — President	<i>Aug 2025 – May 2026</i>
- Led and organized events including cloud computing and fintech seminars, a tech exhibit, and e-sports competitions - Partnered with internal (JRFINEX, SICAP) and external organizations (Lenovo Legion, CryptoWarriors) to implement university-wide activities	
ICON Committee (SCOPE) — Chairman	<i>Aug 2024 – May 2025</i>
Led and organized events including typing contests, quiz bees, Capture the Flag, and programming competitions	

TECHNICAL SKILLS

Digital Forensics: Windows Event Log analysis, Wireshark, Ghidra, Binary Ninja, CyberChef
Programming & Data: Python, Java, C, SQL, bash, JavaScript
Platforms & Tools: Splunk, Cisco Packet Tracer
